## Bug found and corrected in latest module zip file

Posted by suski - 2008/01/14 11:04

---

There was a bug in the latest Google Analytics Tracking Module for Virtuemart (ga.js).

Line 36 was:

```
var PageTracker =
```

It should be:

```
var pageTracker =
```

Bug has been corrected January 14th at 11am. Please edit your modules/mod\_analytics.php file or uninstall the module and install the latest one.
